## Moving into Action 2012

The Church in Southern Africa needs to Go North, but it is not an individualistic effort. It is a collaboration between individuals, churches, organisations and businesses; unified around a common mission vision.

We are to be the salt and light. Salt is not the replacement of, nor an alternative of that which already exists. However, salt has the ability to penetrate without being noticed, yet able to bring the best out of that which already exist.

In order for Southern Africa to become a blessing to the north, we are to firstly connect with the main focus of not replacing, nor being the alternative, but to empower... Join us, as we 'Go North'.

We invite you to step out in faith to become a part of MIA2012.
